A friend who listens to your allOnight program tells me that ~~xxx~~ a week or so ago you had a Mr. Al Newman who said he is writing a book on the Kennedy assassination.

I am very interested in this subject and would appreciate it if either you or Mr. Newman could let me know more about it, what it is entitled, when it will be printed and if it will be available in the Washington area, ~~etc~~. Does Mr. Newman believe the official account of the Warren Commission
